Inviting Contractors – Agent Admin

In Agent Training 2 – Setting Up Sensor Portal, we showed you how to add a contractor and find one already on the platform in your area via Settings / Contractors. Let's have a closer look.

1. REGISTERED

A registered contractor means they have registered on the Sensor Trade portal, and a tick shows they have submitted their license and insurance details.

You will also see the quote amount they have submitted for supply and installation.

The padlock icon under Actions is where you can grant access for them to issue an Entry Notice signed by you.

Business No.	Contact Name	Contact Email	Contact Phone	Costing	Approved for EN	Actions
Sam Butcher	Sam	karen.myers+SamButcher@sensorglobal.com	+61 412 420 062	\$476.85	No	

Show Rows 50 1 - 1 of 1

If this setting is set to NO and the contractor requires access, they will be requesting via the Sensor Portal for you to initiate the Entry Notice

2. INVITED

This shows the Contractors you have invited and who haven't accepted your invitation yet

You can reissue the invitation by clicking the circle arrow icon in the Actions column.

3. FIND CONTRACTORS

Type in a name or email address in the search bar. If they are already registered on the Sensor Trade Portal, you can invite them to conduct installations and maintenance for your business. Click the Invite Icon to invite them.

INVITE CONTRACTORS

If they are invited but haven't accepted, contact them to offer support from you or from Sensor Support

Agent Training 4

Inviting Contractors – Agent Admin

Please do not complete this section until you have spoken with your electricians. We call them Contractors in the Sensor portals.

4. INVITING NEW CONTRACTORS

If you have no registered or invited contractors, you can invite your own trusted electricians (Contractors). In your Welcome Pack there is information and an email template for you to send to your contractors.

Access the Introductory Communications from your welcome email. If contractors know about the Sensor Global suite of products in advance they will be prepared for when they receive a welcome email from you generated by the Sensor Agent portal.

The screenshot displays the 'SETTINGS' page in the Sensor Agent Admin interface. The 'CONTRACTORS' tab is selected under 'CONTRACTOR MANAGEMENT'. A table lists contractors, with one entry for 'Spike's Sparks' showing 'Spike Milligan' as the contact name and 'karen.myers+spike@sensorglobal.com' as the email. The 'Approved for EN' column shows 'No'. A callout box points to the 'INVITE CONTRACTORS' button. A modal window titled 'Invite Contractors' is open, showing fields for 'Business Name', 'Contact Name', and 'Email', with 'CANCEL' and 'INVITE' buttons at the bottom.

Business Name ^	Contact Name ^	Contact Email ^	Contact Phone ^	Costing	Approved for EN ^	Actions
